

## COLLABORATIVE EUROPEAN DIGITAL ARCHIVE INFRASTRUCTURE

**Project Acronym:** CENDARI  
**Project Grant No.:** 284432  
**Theme:** FP7-INFRASTRUCTURES-2011-1  
**Project Start Date:** 01 February 2012  
**Project End Date:** 31 January 2016

| <b>Deliverable No. :</b>  | D8.1   |
| <b>Title of Deliverable:</b>                                      | Functional Description, portal and VRE   |
| <b>Date of Posting to Basecamp/Confluence for Partner Review:</b> | May 2013   |
| <b>Date of Finalised Deliverable:</b>                             | July 2013 (Version 1.0)  |
| <b>Revision No.:</b>  | 1  |
| <b>WP No.:</b>  | 8  |
| <b>Lead Beneficiary:</b>  | University of Göttingen (UGOE)   |
| <b>Author (Name and email address):</b>                           | Collaborative deliverable developed by the CENDARI WP8 team  |
| <b>Dissemination Level:</b>                                       | PP = restricted to other programme participants  |
| <b>Nature of Deliverable:</b>                                     | R = report   |
| <b>Abstract:</b>  | <p>This report provides an overview of the user-requested functions and functional requirements collected in order to support the CENDARI project goal of developing a research portal and VRE tailored towards the needs of its research community.</p> <p>These functions were collected from the following project activities: two participatory design workshops with WWI and medieval historians that featured the creation of video prototypes; from textual descriptions of the researchers' contexts of use and research questions (user scenarios) and short lists of individual research activities (user stories); and from two prototype concepts that will serve as the focus of future</p> |

|  | <p>implementation and development work within the project. This initial portfolio of user-generated functions will serve as the foundation for developing functional descriptions for the CENDARI research environment.</p> <p>The user stories that resulted from the participatory design sessions and the user scenarios and user stories are presented in CENDARI D4.2 – Domain Use Cases.</p> |
